

# Child Support – Quiz

*Determine whether each of the below statements is TRUE or FALSE.*

1. Parents must pay child support even if they do not visit with their children.
2. Child support is deductible on taxes.
3. Only biological parents pay child support.
4. Child support may still be payable when a child is 18 year of age or older.
5. Child support is calculated based on the paying parent's annual, gross income.
6. The child support guidelines table amount from the province where the recipient parent lives is used to determine child support.
7. It is sometimes necessary to look at both parents' incomes to determine the appropriate amount of child support.
8. Section 7 expenses will not be awarded unless they are considered necessary for the child and reasonable considering the parents' means and historical expenses.
9. The courts may order an amount other than the table amount of child support when the parent's income is over \$100,000.
10. If a parent moves far away with the children, the other parent may be able to have their child support reduced based on an undue hardship claim.
11. Most court orders will specify an end date for child support.
12. Only one parent must live in Manitoba to use the Child Support Recalculation Service.
